MONTHLY

Vol.1 No.5

*A prophetic journal of the Council of Seers and Prophetic People (COSAPP)*

First Words  
by Ernest  
Paul

**W**e live in a prophetic age. We are in an era of increasing revelation. The Lord very often gives us revelations but we have not always been faithful to steward these revelations well, whether in terms of sharing them with others or of responding appropriately to the specific revelation. In fact many people even doubt that these experiences are from God. The result is that in time the fountain of revelation would dry up in such people's life. In the Kingdom of God things multiply when we give them away. And when we are faithful with the little we are given we get more. In this Social-media-era everyone seems to have found his voice and so the tendency is to talk, talk, talk, rather than listen, listen, listen. So most times when we receive words from God, and when we post or publish prophetic words rather than meditating on them and/or acting on them we just make comments we say 'amen', or 'rev' or 'true word' and then we pass on and move on to the next story. This is not good enough. God gives us revelation to help us, to guide us, to save us. But unless we pay attention to them, unless we actually STOP, and pay heed to what God is saying we would not profit from His intervention. Please ponder these words and thereafter act as the Holy Spirit leads you.

## The Work of the Church isn't done yet.

-ROBYN PAUL

**O**n the eve of the inauguration of the President-elect, Gen. Muhammadu Buhari I had a prophetic dream which might be considered a sequel to the prophetic experience I had after Buhari was announced as the winner of the presidential elections last month (this experience was narrated in the last edition of Seer Monthly).

In that encounter two very stern looking angelic beings, came to me. At first I was afraid when I saw them. They were here on assignment, and I was told that the work of the church was just beginning. The understanding was that it is too early for us to rest on our oars. Winning the election was only part of the job.

In my recent dream I found myself in the presidential villa, doing a lot of things for the new

## Stand Against the Homosexual devil

-TUNDE ALLI-BALOGUN

**O**n the 18th of May, 2015, I had a dream, I and a brother were looking for a place to pass the night, and eventually saw my university hostel nearby, and so we went there to spend the night. I was asking the Hostel warden if there was a vacant room to stay in, they checked and they got us a room which was not totally occupied, so we agreed to stay there, but they gave a warning that we shouldn't interact with the roommates because they were gay and if they raped us or something, they

## The Work of the Church isn't done yet. Contd.

president, organizing and generally making sure that everything was in order for the inauguration the following morning. When my job was done I opened the door to leave and just as I stepped out I was accosted by three hefty, dark, sinister-looking men. Boy, were they huge! I knew at once that they were demonic forces, dark sinister forces. They said so I have been helping the president right? They would deal with me. I knew they were going to harm me and I knew there was nothing in the world that could deliver me out of their hands; there was nowhere I could run to for they were right in front of me. In that instant I lifted my eyes to God and asked Him to help me. My heart really connected with God and in a flash I found myself ascending the walls of a building. I can't tell what happened. When I snapped out of the experience I was still feeling horrified. Just then I knew that there are very wicked forces determined to maintain the status quo, who did not want CHANGE to happen in Nigeria, who would fight against anyone trying to help the cause. Furthermore, the expectation people have from the president is too much, and unless the church rises up to police the spirit realm and govern with him in the spirit he would be swarmed.

Fervent prayer is not about praying with great intensity; rather it is about maintaining the intensity or passion we started with until we see the desired result. The church prayed with so much passion during the elections. That passion must not diminish. Our task is far from being over.

## Stand Against the Homosexual devil. Contd.

wouldn't be able to do anything about it. So we thought it wise that rather than endangering our lives why not look for a better place to spend the night. We left the place and on our way up the hill, we saw a man (which I perceive in the dream to be an angel) crying bitterly, and was saying that we've overlooked the issue of homosexuality and now it's widespread and everywhere, immediately a picture flashed into my mind in the dream of homosexuality being legalized and forced on people, and the people who rejected it were either killed or raped, then I woke up. I was sharing this experience with a sister and she had a similar dream that same night about homosexuality in the church as well.

So, we engaged in prayer and I perceive that the Lord would have us (the church) stand against this foul spirit called Homosexuality and push it out completely...

### **Pray Against the Spirit of Deception in the Church**

In another dream, I saw a man who had an affair with a lady not married but they were having sexual relations and later the guy dumped her, and left her miserable. After that incident this same guy wanted to and in fact got into another relationship with a friend of mine (a lady). I was trying to warn her of his intentions towards her but she was too involved with him to even believe me, this dream repeated itself twice with similar intentions. While praying to understand what this dream meant I heard these words: "pray against the spirit of deception in the church"...

## Prepare for the Coming Attack.

-KEHINDE OJOAWO

**O**n the 25th of April 2015, I had a dream which was about what is to come. In the dream, I saw a meeting holding in Ahmadu Bello University, Zaria where the sons of the bond woman were planning to launch a series of attacks on the nation. The plan was to cause chaos in Nigeria and it was going to spread from ABU to other campuses especially in the south. The plan was in stages:

**Stage 1 RECRUITMENT:** This first stage is a subtle style of persuasion and alluring through money, this exercise was being carried out in an aggressive manner with a consciousness that the time was short.

**Stage 2 INDOCTRINATION AND TRAINING:** It is in this stage that we will see the reason others must be killed in failing to yield to Islam. It is in training that they learn the use of weaponries and how to manufacture same.

**Stage 3 ASSAULT/ ATTACK:** This was the final stage of attacking and killing of non-Muslims.

As the dream continued, I saw three camps of Christians, the information about the impending attack by the sons of the bond woman came to all the camps. The first camp was saying it cannot happen, because of the personality of the new president, and they continued with their normal routine of reading and playing.

The second camp received the information and started looking for a means of securing weapons to fight, they were preparing for self-defence.

While the third camp was moving from hostel to hostel to mobilise Christians for prayers and bible studies, I observed there was a low turnout while the

first two camps were making jest of them.

Eventually the D-day came and Christians were maimed and killed mercilessly, the only people that were preserved in ABU were the prepared Christians who gave themselves to the Word and prayers, and it was impossible for others to join them. They were in one hostel and every attempt to set the hostel ablaze was futile.

## The Governing, Daniel Church

-OLUWAFEMI BELLO

**O**n Monday 4th May, I saw General Buhari and Governor Ajimobi of Oyo state in my dream. They both looked disturbed after deliberating on a certain challenge that their administration was faced with. Then I saw this young Kingdom believer, He had so much light and understanding about governance and administrative issues. He wasn't willing to show off himself. I noticed that He was careful to observe the protocols related to addressing a superior well. Afterward, He brought forth counsel. President Buhari was totally amazed by the combination of wisdom and character. I sense we are in the days of the Daniel church (i.e. a church that governs with kings through the wisdom and favour of God)

### Spotlight on Mugabe

On the 15th of March 2015, I woke up from a dream. An experience where an audible voice was calling Robert Mugabe. I sense the spotlight of God on Him. I sense peculiar, divine interest in Zimbabwe. The sceptre of this ruler will soon be broken and Zimbabwe will be free! Amen.

## A Lesson From The Fathers

I sense God will soon start creating opportunities for the younger generation to interface with the fathers of the Pentecostal move. Whether these fathers will fully transition or not will depend on our attitude towards them and how sound our theology is. On the 15th of November, 2013, I had a dream. Bishop Wale Oke organized a meeting in which He featured Pa Elton, Someone from the younger generation (I) and Bishop David Oyedepo. The speakers were to speak in that order and were present in the auditorium at the same time. Pa Elton's session was characterized by a strong atmosphere of repentance. When it came to my turn to preach, I noticed I was battling with certain unresolved issues about the errors of the Fathers and saw that as a platform to 'change ' them. Because I couldn't love and value the Fathers, my utterance shutdown. As I continued struggling, another microphone supernaturally appeared in Bishop Oyedepo's hands. He took over the service while I left the stage uncelebrated. I woke up from this dream disturbed, feeling that I missed a major opportunity. As I further sought God on this, these thoughts came to me, "The Fathers have a testimony of faithfulness in serving God's purpose in their generation. The authority they wield is by being faithful. The generation that will carry greater authority must desist from attitudes and mind-sets that reduce authority and be clothed with humility.

## University of Ibadan (U.I.) Prays Part 2.

-LAWRENCE OYOR

**G**alatians 6:9, "And let us not be weary in well doing: for in due season we shall reap, if we faint not."

I think one of the greatest fuels in times of waiting is hope. Hope keeps you

going when all others think you are crazy. And our loving father preserves this hope by showing us what is to come.

The second week was greeted with much enthusiasm. We were sure we were close to hitting something even though we weren't certain what it was. And so the prayers continued with strong groanings, passionate worship and inspiring sermons. After the Monday round which ended by 6am on Tuesday, we were beginning to leave when a brother who was part of the meetings but had missed that night came narrating an encounter he had overnight. He spoke of how he met with Jesus and saw and heard awesome things in heaven. Jesus spoke to him about many things including the campus. He said heaven was happy with our praying and wanted us to do much more. Jesus showed him the state of the campus and wept. An interesting part of the experience was the translation experience he had wherein he was taken physically to a room on campus where a couple were in the act of immorality. They saw him and ran out of the room. He vanished again from their sight. This was the second translation experience we recorded. Many more were to come as the days went by. Just hearing that Jesus had taken note of our labour and was proud of us was another fresh push in the spirit. The next night, as we prayed and worshiped, the

spirit of prophecy fell on particular people. One was a sister and the other was a brother. The sister spoke God's mind concerning several things and these were phone recorded. The brother's experience however was more dramatic because his hands began to burn. He was given a mantle and was instructed to impart three people with it. Being new to the whole experience, he began acting weirdly as he wanted to get rid of the heat. Until he had imparted all three the fire wasn't going to stop burning on his hands and head. The effect of the fire was so much that he began to pour sachets of pure water on his hands and head. This went on for 45mins. Two of the people had received the impartation by this time. The last person wasn't in the meeting. We know because he saw the name of the person and began crying that we should contact her to come and receive hers immediately. Anyway she eventually ran down and received her portion. One interesting thing that happened was when this brother stood by one of the pillars. His head began to smoke. Believe it when I say smoke began coming out from the top of his head. Some persons touched it and felt it electrocute them. A particular brother put his hand to feel it and was knocked down by power and began immediately prophesying. Interestingly we realised later that he quoted scriptures he had no previous knowledge of. The brother with the fire experience was never to remain the same again as he started seeing very clearly and at such a rate that he had to rush to the school gate to get a note book to write all he was seeing and hearing. He was so overwhelmed by the experience that he began to cry and ask what will become of him. A question I sincerely couldn't answer at the moment. I heard later that the smoke thing occurred again while he followed his fellowship for evangelism. It was clear to see in the bright afternoon. I believe this was just a tip of the iceberg as believers will soon be seen walking around with fire literally on their heads.

The experience that shook us the most was the corporate baptism that took place on the Thursday

session of that week. Very early on Friday morning while we were listening to an exhortation on faith, angels appeared in the sky and could be seen by everyone. The clouds took the form of multiplied tongues of fire, the clouds gathered again and took the form of a throne and later on a crown. As we beheld these sights, the power hit us all. I've never felt God's power that way before because it was as though I was inside a river of electricity that I could literally feel. The meeting was disrupted for about 45mins as people began breaking into individual encounters. We gathered again together and decided to go to every hall to speak of Jesus, and off we went at about 5am. I clearly remember someone who tried to touch me that morning and got electrocuted. It was just amazing! By the next day, the news had gone round and many more people came to see what God was doing. As I'm writing this, I can still feel the atmosphere of some of the meetings and it is causing me to hunger again afresh for more of His reality.

(To Be Continued.....)

In the next and final account, I will highlight some of the most unbelievable testimonies and experiences ranging from miracle finance, translations, power evangelism, angelic assistance, and so on. It's been two years now and the offshoots of the meetings have not stopped. Nobody remains the same after a definite encounter with Yahweh. Child of God, anything is possible...

## **About Seer Monthly**

Seer monthly is a prophetic journal of the Council of Seers and Prophetic People (COSAPP). If you want it sent to your email please send a request to: [cosapp@hotmail.com](mailto:cosapp@hotmail.com)
